

With over 35 years in the real estate industry and 25 in leadership roles, I bring a wealth of experience, perspective, and commitment to our profession. I've served as a Team Leader, Branch Manager, General Manager, and Vice President, helping guide agents through market shifts, business growth, and personal development. My leadership philosophy is simple: support agents like customers—by listening, clearing distractions, and helping them find what works. I believe real estate is one of the most accessible and rewarding careers for those willing to believe in themselves, follow a plan, and stay the course. I recently completed a term as Director and remain passionate about serving our Association during this pivotal time. As our industry evolves, I believe it's vital to have steady, experienced voices at the table—leaders who understand the business from the ground up and are committed to helping our members thrive in a changing landscape.
